

What is the Magic Tan Sunless Spray Unit?

A revolutionary, fully automated spray tan machine, which uses state of the art misting technology and sunless tanning solutions to provide an instant, even, natural looking tan. The Magic Tan Unit uniformly sprays a fine mist of solution over the entire body, creating an even, golden brown tan that will continue to deepen throughout the day. The entire process is achieved without the use of lotions, so there is no mess and no uneven streaks and/or blemishes left on the body. In addition, the process is entirely UV-free, which allows those who are sensitive to sunlight and/or blemish or freckle easily to finally receive the perfect tan they've always wanted!

Sunless Spray Preparation

The day of the appointment you should exfoliate your entire body, paying close attention to extra dry places like the face, knees, and elbows. DO NOT apply anything to the skin prior to the appointment such as moisturizer, deodorant, or perfume. Your skin should be thoroughly clean to achieve the best results.

What To Wear

Wear dark, loose fitting clothing and flip flops to the appointment. You can wear a bathing suit during the session or disposable garments that are provided in the room. If you prefer, you can also go nude, whatever you are comfortable with. **If you would like assistance after the session to remove excess solution you must wear at least the disposable garments for staff to enter the room.**

The Experience

First, when you come in for your appointment, staff will give you a demonstration. We will then set the unit and you will have 15 minutes to get ready. During this time you will put on the hair cap, disposable garments, barrier cream and nose plugs. Once pre-steps are complete, you simply step into the unit, close the door behind you, and press the green button to start the spraying process. You will stand in 4 different positions to ensure even coverage, and the misting will be finished in about one minute. You will then exit the unit, wipe the barrier cream off your hands and feet, and pat yourself dry making sure you pat off any excess solution (you can ask for assistance if need be). Once you are dry and dressed, you are free to go!

Spray Tan Maintenance

It is crucial you DO NOT shower for at least 8 hours after your spray tan session. To maintain your color, we recommend you not use an exfoliating body wash, luffa, bar soap or wash cloth while showering. Your color will darken over time and reach full potential approximately 12 hours after the session. For long lasting color it is important to moisturize at least twice a day. The color you get will last 5-7 days depending on how you take care of your skin.

How To Schedule a Magic Tan Appointment

Call us anytime to set up an appointment. Please do not be late, as we don't want to rush through the session to accommodate other appointments. Walk-ins are welcome, although previously set appointments will take priority over walk-in sessions.

Magic Tan Prices

- Single Session - \$25.00
- Three Sessions - \$60.00
